HVAC Sheet Metal Fabrication 1

2018-19 Academic Year

Program	Year	Semester
START-Heating, Ventilation and Air Conditioning Techniques Certificate	1	1

Course Code:	HVMF 1401 Course Equiv	iv. Code(s): N/A	
Course Hours:	42 Course GPA V	Weighting: 3	
Prerequisite:	N/A		
Corequisite:	N/A		
Laptop Course:	Yes No X		
Delivery Mode(s	s): In class X Online Hybrid	Correspondence	
Authorized by (Dean or Director): Kevin Baker	Date: August 2018	

Prepared by		
First Name	Last Name	Email
Craig	Godfrey	craig.godfrey@durhamcollege.ca

Course Description:

Students will learn the required skills needed to develop and fabricate various pieces of ductwork used in a basic ventilation system. Students will also acquire the skills to use the tools and machinery to safely work and efficiently in fabrication.

Subject Eligibility for Prior Learning Assessment & Recognition (PLAR):

Prior Learning Assessment and Recognition (PLAR) is a process a student can use to gain college credit(s) for learning and skills acquired through previous life and work experiences. Candidates who successfully meet the course learning outcomes of a specific course may be granted credit based on the successful assessment of their prior learning. The type of assessment method (s) used will be determined by subject matter experts. Grades received for the PLAR challenge will be included in the calculation of a student's grade point average.

The PLAR application process is outlined in http://www.durhamcollege.ca/plar. Full-time and part-time students must adhere to all deadline dates. Please email: PLAR@durhamcollege.ca for details.

Course Learning Outcomes

Course Learning Outcomes contribute to the achievement of Program Learning Outcomes for courses that lead to a credential (e.g. diploma). A complete list of Vocational/Program Learning Outcomes and Essential Employability

Skill Outcomes are located in each Program Guide. Course Specific Learning Outcomes (CLO) **Essential Employability Skill Outcomes (ESSO)** Student receiving a credit for this course will have This course will contribute to the achievement of reliably demonstrated their ability to: the following Essential Employability Skills: EES 1. Communicate clearly, concisely and CLO1 Solve trade related problems related to correctly in the written, spoken, and visual form various situations. Fabricating with hand that fulfills the purpose and meets the needs of tools only. the audience. CLO₂ Calculate and develop drawings of a plenum and a duct system. Use of hand tools EES 2. Respond to written, spoken, or visual messages in a manner that ensures effective available on the job site. communication. CLO3 Student will work in a simulated work X EES 3. Execute mathematical operations environment installing prefabricated fittings. accurately. EES 4. Apply a systematic approach to solve problems. X EES 5. Use a variety of thinking skills to anticipate and solve problems. EES 6. Locate, select, organize, and document information using appropriate technology and information systems. EES 7. Analyze, evaluate, and apply relevant information from a variety of sources. EES 8. Show respect for the diverse opinions, values, belief systems, and contribution of others. EES 9. Interact with others in groups or teams in ways that contribute to effective working relationships and the achievement of goals. EES 10. Manage the use of time and other resources to complete projects. EES 11. Take responsibility for one's own actions, decisions, and consequences.

Evaluation Criteria:

The Course Learning Outcomes and Essential Employability Skills Outcomes are evaluated by the following evaluation criterion.

Evaluation Description	Course Learning Outcomes	EESOs	Weighting
Project 1 Fabricate a duct 5 3/8 X 5 3/5 and 11" long.	CLO1, CLO2, CLO3	EES3, EES4, EES5, EES10	10
Project 2 Fabrication of a rectangle duct 4 3/4 X 10, 11"long.	CLO1, CLO2, CLO3	EES3, EES4, EES5, EES10	10
Project 3 Assembly of duct-work using Drive and "S" cleat. How to prepare and make a drive cleat.	CLO1, CLO2, CLO3	EES3, EES4, EES5, EES10	10
Project 4 Develop and fabricate a transition joining project 1 and 2.	CLO1, CLO2, CLO3	EES3, EES4, EES5, EES10	10
Project 5 Develop and fabricate an elbow with optional seam.	CLO1, CLO2, CLO3	EES3, EES4, EES5, EES10	10
Project 6 Demonstration on optional seam, double hem, fabricate a 6 X 6 short duct 6" long.	CLO1, CLO2, CLO3	EES3, EES4, EES5, EES10	10
Project 7 Demonstration and practice cutting a square hole in a large duct.	CLO1, CLO2, CLO3	EES3, EES4, EES5, EES10	10
final practical project, measure, install duct-work. Hand in the completed work book 5% + 25% for the project	CLO1, CLO2, CLO3	EES3, EES4, EES5, EES10	30
Total			100%

Notes:

- 1. Fabricate projects marked on quality as demonstrated by instructor.
- 2. Test on all course content student will measure and install a duct run on a furnace in a simulated work area. Hand in completed work book.

Required Text(s) and Supplies:

- 1. Binder for hand-outs and completed ductwork development sketches
- 2. Pencil, pen, sharpie, Tape measure, calculator, safety gloves

Recommended Resources (purchase is optional):

Policies and Expectations for the Learning Environment:

General Policies and Expectations:

General College policies related to

- + Acceptable Use of Information Technology
- + Academic Policies
- + Academic Honesty
- + Student Code of Conduct
- Students' Rights and Responsibilities can be found on-line at http://www.durhamcollege.ca/academicpolicies

General policies related to

- + attendance
- absence related to tests or assignment due dates
- + excused absences
- + writing tests and assignments
- classroom management can be found in the Program Guide (full time programs only) in MyCampus http://www.durhamcollege.ca/mycampus/

Course Specific Policies and Expectations:

Every class students will follow Durham college policies on safety:

-not permitted in class without PPE, or shorts. Distractions in class as in ear plugs, music, phones will not be allowed.

All of the class is responsible for clean-up (sweeping) safety gloves are required.

General Course Outline Notes:

- 1. Students should use the course outline as a learning tool to guide their achievement of the learning outcomes for this course. Specific questions should be directed to their individual professor.
- 2. The college considers the electronic communication methods (i.e. DC Mail or DC Connect) as the primary channel of communication. Students should check the sources regularly for current course information.
- 3. Professors are responsible for following this outline and facilitating the learning as detailed in this outline.
- 4. Course outlines should be retained for future needs (i.e. university credits, transfer of credits etc.)
- 5. A full description of the Academic Appeals Process can be found at http://durhamcollege.ca/gradeappeal.
- 6. Faculty are committed to ensuring accessible learning for all students. Students who would like assistance with academic access and accommodations in accordance with the Ontario Human Rights Code should register with the Access and Support Centre (ASC). ASC is located in room SW116, Oshawa Campus and in room 180 at the Whitby Campus. Contact ASC at 905-721-3123 for more information.
- 7. Durham College is committed to the fundamental values of preserving academic integrity. Durham College and faculty members reserve the right to use electronic means to detect and help prevent plagiarism. Students agree that by taking this course all assignments could be subject to submission either by themselves or by the faculty member for a review of textual similarity to Turnitin.com. Further information about Turnitin can be found on the Turnitin.com Web site.

Learning Plan

The Learning Plan is a planning guideline. Actual delivery of content may vary with circumstances.

Students will be notified in writing of changes that involve the addition or deletion of learning outcomes or evaluations, prior to changes being implemented, as specified in the Course Outline Policy and Procedure at Durham College.
