Trade Fundamentals Plumbing

2018-19 Academic Year

Program	Year	Semester
START-Trades Fundamentals Certificate	1	1

Course Code:	TFBP 1303 Course Equiv. Code(s): N/A	
Course Hours:	42 Course GPA Weighting: 3	
Prerequisite:	N/A	
Corequisite:	N/A	
Laptop Course:	Yes No X	
Delivery Mode(s): In class X Online Hybrid Correspondence	
Authorized by (Dean or Director): Kevin Baker Date: July 2018	

Prepared by		
First Name	Last Name	Email
Richard	Lamarche	richard.lamarche@durhamcollege.ca

Course Description:

Plumbing careers can encompass work from the installation, repair and maintenance of pipes and fixtures to the complex installation of plumbing systems in residential, commercial and industrial buildings. This course provides the students with an introduction to piping systems, joining methods and practices commonly used in the plumbing industry and how they relate to the Ontario Building Code. Students will be introduced to piping projects with real world applications.

Subject Eligibility for Prior Learning Assessment & Recognition (PLAR):

Prior Learning Assessment and Recognition (PLAR) is a process a student can use to gain college credit(s) for learning and skills acquired through previous life and work experiences. Candidates who successfully meet the course learning outcomes of a specific course may be granted credit based on the successful assessment of their prior learning. The type of assessment method (s) used will be determined by subject matter experts. Grades received for the PLAR challenge will be included in the calculation of a student's grade point average.

The PLAR application process is outlined in http://www.durhamcollege.ca/plar.Full-time and part-time students must adhere to all deadline dates. Please email: PLAR@durhamcollege.ca for details.

PLAR EI	igibility

Course Learning Outcomes

appropriate tools, techniques, equipment and

supplies.

Course Learning Outcomes contribute to the achievement of Program Learning Outcomes for courses that lead to a credential (e.g. diploma). A complete list of Vocational/Program Learning Outcomes and Essential Employability Skill Outcomes are located in each Program Guide.

Course Specific Learning Outcomes (CLO) **Essential Employability Skill Outcomes (ESSO)** Student receiving a credit for this course will have This course will contribute to the achievement of reliably demonstrated their ability to: the following Essential Employability Skills: EES 1. Communicate clearly, concisely and CLO1 Adhere to all health and safety requirements correctly in the written, spoken, and visual form of the Plumbing shop as well as any classrooms and laboratories. that fulfills the purpose and meets the needs of the audience. CLO₂ Identify educational pathways and career X opportunities within the trade of Plumbing EES 2. Respond to written, spoken, or visual messages in a manner that ensures effective including post-secondary and apprenticeship communication. models as well as various job opportunities within this profession. X EES 3. Execute mathematical operations CLO₃ accurately. Identify, select, and safely use various measuring tools, instruments, hand tools Х EES 4. Apply a systematic approach to solve and power tools to complete piping projects. problems. CLO₄ Complete trade calculations in a successful EES 5. Use a variety of thinking skills to manner related to the trade of Plumbing. anticipate and solve problems. CLO₅ Apply basic trade knowledge and related X EES 6. Locate, select, organize, and document terminology to communicate effectively in a information using appropriate technology and Plumbing setting. information systems. CLO₆ Complete basic Plumbing projects using EES 7. Analyze, evaluate, and apply relevant

EES 10. Manage the use of time and other

EES 11. Take responsibility for one's own actions, decisions, and consequences.

resources to complete projects.

Evaluation Criteria:

The Course Learning Outcomes and Essential Employability Skills Outcomes are evaluated by the following evaluation criterion.

Evaluation Description	Course Learning Outcomes	EESOs	Weighting
Safety Orientation Assignment	CLO1	EES2, EES6, EES10	5
Hand tool identification and safe use assignment	CLO1, CLO3	EES2, EES6, EES10	5
Fitting allowance assignment	CLO3, CLO4	EES3, EES4	5
Project #1 - Hard copper pipe	CLO1, CLO3, CLO4, CLO6	EES3, EES9, EES10	10
Project #2 - Steel pipe	CLO1, CLO3, CLO4, CLO6	EES3, EES9, EES10	10
Project #3 - Plastic pipe	CLO1, CLO3, CLO4, CLO6	EES3, EES9, EES10	10
Project #4 - Final	CLO1, CLO3, CLO4, CLO6	EES3, EES9, EES10, EES11	25
General ongoing shop clean up.	CLO1, CLO2, CLO3, CLO4, CLO5, CLO6	EES9, EES11	5
Final Test	CLO2, CLO4, CLO5	EES2, EES3, EES4, EES6, EES10	25
Total			100%

Notes:

- 1. In process activities occur in class and will only be given once. They cannot be made up or supplemented. Any missed in-class or lab/shop activities will be assigned a mark of "0."
- 2. Assignments and exercises are to be submitted on the due date at the beginning of class, unless otherwise directed by the professor. Late assignments will be penalized 10% per calendar day, acknowledging a heavy penalty in keeping with the importance placed on deadlines within the workplace environment.
- 3. Online exercises (1 to 4) must be completed before beginning the associated shop project. Online exercise 5 must be completed after Project #4 has been submitted. The mark for the completion of these exercises will be incorporated into final project grades as indicated in the sequence of instruction.
- 4. All written assignments must be type written. Specific requirements regarding format and referencing will be presented in class.
- 5. Projects and assignments which are completed in groups will be given a group mark and your individual mark will be based on this mark and any individual work assigned. If you do not fully participate in these group activities (i.e. you were away) your individual mark will be adjusted accordingly. As an example, if a group project was scheduled for 4 shop sessions and you missed 1 complete session, the "group portion" of your mark will be 75% (3/4) of the actual grade.
- 6. An interim mark will be determined for all first year students to identify their academic progress. This mark will be based on assignments and shop projects.

Required Text(s) and Supplies:

- 1. No Text required
- 2. A calculator with basic functions
- 3. Personal Protective Equipment
 - CSA approved (Green Patch) safety footwear,
 - Hardhat
 - Safety glasses
- 4. Tape measure, minimum 12 feet long (Imperial is mandatory, Metric is optional)

Recommended Resources (purchase is optional):

- 1. IPT's Pipe Trades Handbook
- 2. Coveralls or shop coat (do not wear coveralls or shop coats in classrooms)
- 3. Work gloves (for safety reasons, the use of gloves may be restricted while utilizing some shop equipment)

Policies and Expectations for the Learning Environment:

General Policies and Expectations:

General College policies related to

- + Acceptable Use of Information Technology
- + Academic Policies
- + Academic Honesty
- + Student Code of Conduct
- + Students' Rights and Responsibilities can be found on-line at http://www.durhamcollege.ca/academicpolicies

General policies related to

- + attendance
- + absence related to tests or assignment due
- + excused absences
- + writing tests and assignments
- + classroom management can be found in the Program Guide (full time programs only) in MyCampus http://www.durhamcollege.ca/mycampus/

Course Specific Policies and Expectations:

STUDENT CONDUCT: Students are expected to conduct themselves in a professional manner while on campus and off campus. Students are expected to comply with the program's professional conduct, appearance, and safety expectations found in the Program Guide and to understand and comply with off-site policies and procedures. It is everyone's responsibility to have respect for their peers.

CELL PHONES/PAGERS: Electronic communication devices will be turned off and not used in the classroom unless part of the objectives or learning activities of a course or lesson. Students who disrupt a class to the detriment of the other members of the class will be asked to leave.

MISSED TESTS: The opportunity to write a missed test is discretionary and may be granted based on meeting the following criteria: notifying the professor prior to the scheduled test time; submitting appropriate documentation (e.g. note from doctor, dentist etc) to validate the absence to the subject professor, and meeting with the professor. PEER INTERACTION AND FEEDBACK: Students are expected to participate with their peers in active learning activities and demonstrations. These demonstrations provide students with opportunities for written/verbal feedback from their peers, instructor, and others on the application of learned course material.

ATTENDANCE: Students are expected to attend all lecture and practical sessions for this course. Failure to do so could result in serious gaps in knowledge that may result in safety breaches in the shop environment. If the professor feels that a student is not being "safe" in the shop, the professor will remove the student from the environment. Students must wear PPE in the shop environment and follow safety guidelines. Failure to do so will result in the student being asked to leave and negate their opportunity to complete projects/assessments.

It is college policy that no food is brought to classrooms. Beverages such as coffee, juice, water etc. will be allowed at the discretion of your professors. This privilege may be revoked at any time if refuse is left behind at the end of class. Please ensure that you and your fellow students clean up after themselves.

No food or drink is allowed in shop areas at any time.

Please do not enter the plumbing shop(s) unless accompanied by your professor. This shop is a multi-user facility and you may be interrupting another class if not accompanied by your professor.

Breaks are to be taken as a whole class and will be announced by your professor. You cannot continue to work in the shop while the class is on a break.

The nature of this subject is that attendance is imperative to successful completion. Attendance will be taken at the beginning and end of scheduled shop sessions. Please do not leave the shop area until cleanup is complete, tools are accounted for and stored, attendance has been taken and the class is dismissed by your professor.

Workplace safety is a primary focus in all workshop and lab settings. Students are expected to work in a safe manner and follow all prescribed safety rules whenever they are in a workshop or lab.

- Students who endanger themselves or others will be asked to leave the class at the professor's discretion. Disciplinary action will be taken.
- Wilful misuse of lab/shop equipment will result in expulsion from the lab and a corresponding mark of zero (0) for that lab/shop session.
- It is absolutely imperative that students wear the personal protective equipment required by the safety policy for the workshop or lab that they are using. You will not be allowed in the workshop and lab area or to work on projects unless you wear prescribed safety equipment.
- Durham College Course Outline TFBP 1303 -
- Shorts, sandals and "tank tops" must not be worn. Any other items, which are safety concerns, must be removed or addressed before working (i.e. necklaces, earrings, exposed body piercing(s), loose clothing, gloves, etc.). Long hair must be field back
- No electronic equipment (i.e. cell phones, cameras, personal music equipment, etc) may be taken into any shop, lab or practical working area.
- If you are barred from working in the workshop or lab for a scheduled class you will receive a mark of zero for any labs, projects, assignments/tests for that particular class. If attendance is taken you will be marked absent from that class.

DO NOT use any tools or equipment unless YOUR PROFESSOR has instructed you in their safe operation. You must have specific authorization from the college before using any equipment in a shop/lab.

- Working in any workshop or lab area without the supervision of your professor is strictly prohibited. Impaired judgment is a safety issue. If your professor suspects that your judgement may be impaired, you will not be allowed to participate in workshop or lab activities.

Please report all safety concerns immediately to the supervising staff.

General Course Outline Notes:

- 1. Students should use the course outline as a learning tool to guide their achievement of the learning outcomes for this course. Specific questions should be directed to their individual professor.
- The college considers the electronic communication methods (i.e. DC Mail or DC Connect) as the primary channel of communication. Students should check the sources regularly for current course information.
- 3. Professors are responsible for following this outline and facilitating the learning as detailed in this outline.
- 4. Course outlines should be retained for future needs (i.e. university credits, transfer of credits etc.)
- 5. A full description of the Academic Appeals Process can be found at http://durhamcollege.ca/gradeappeal.
- 6. Faculty are committed to ensuring accessible learning for all students. Students who would like assistance with academic access and accommodations in accordance with the Ontario Human Rights Code should register with the Access and Support Centre (ASC). ASC is located in room SW116, Oshawa Campus and in room 180 at the Whitby Campus. Contact ASC at 905-721-3123 for more information.
- 7. Durham College is committed to the fundamental values of preserving academic integrity. Durham College and faculty members reserve the right to use electronic means to detect and help prevent plagiarism. Students agree that by taking this course all assignments could be subject to submission either by themselves or by the faculty member for a review of textual similarity to Turnitin.com. Further information about Turnitin can be found on the Turnitin.com Web site.

Learning Plan

The Learning Plan is a planning guideline. Actual delivery of content may vary with circumstances.

Students will be notified in writing of changes that involve the addition or deletion of learning outcomes or evaluations, prior to changes being implemented, as specified in the Course Outline Policy and Procedure at Durham College.
