## **Course Description:**

Human Relations introduces students to interpersonal dynamics in social and professional contexts. Students consider why our beliefs, outlooks, values, and actions sometimes cause conflict in our personal lives and in work-related situations. They address Human Relations-related theories, concepts, skills, and strategies against the broad recognition that today's employers (across a range of industries) seek candidates who demonstrate: a positive attitude, communication skills, strong work ethic, customer service skills, and teamwork. Consequently, students assess how people communicate with one another; they reflect upon how people convey messages and how others interpret or perceive those messages. Finally, this course invites students to foster empowerment and self-management skills and traits to improve their efficacy, development, and growth.

## **Campus Closure Notice**

In the event of a campus closure during which time classes cannot be conducted or attended in person, course delivery will be conducted remotely where possible. Should teaching and learning resume on campus, students may be organized into smaller groups for classroom delivery, in accordance with directions from public health authorities. In either situation, the learning plan sequence and/or evaluation methods may be adjusted to address topics requiring hands-on, practical learning activities.

# Subject Eligibility for Prior Learning Assessment & Recognition (PLAR):

Prior Learning Assessment and Recognition (PLAR) is a process a student can use to gain college credit(s) for learning and skills acquired through previous life and work experiences. Candidates who successfully meet the course learning outcomes of a specific course may be granted credit based on the successful assessment of their prior learning. The type of assessment method (s) used will be determined by subject matter experts. Grades received for the PLAR challenge will be included in the calculation of a student's grade point average.

The PLAR application process is outlined in <a href="http://www.durhamcollege.ca/plar.Full-time">http://www.durhamcollege.ca/plar.Full-time</a> and part-time students must adhere to all deadline dates. Please email: PLAR@durhamcollege.ca for details.

# **Course Learning Outcomes**

Course Learning Outcomes contribute to the achievement of Program Learning Outcomes for courses that lead to a credential (e.g. diploma). A complete list of Vocational/Program Learning Outcomes and Essential Employability Skill Outcomes are located in each Program Guide.

#### **Course Specific Learning Outcomes (CLO)**

Student receiving a credit for this course will have reliably demonstrated their ability to:

- CLO1 Apply theories and concepts about personalities, behavioural patterns, organizational cultures, identity categories, diversity, the self, and human interactions to meaningful self-reflective practices.
- CLO2 Practice effective and appropriate interpersonal communication skills -- including accurate, persuasive, and authentic verbal, non-verbal, and written communication -- to enhance academic, personal, and professional conversations, messages, and interactions.
- CLO3 Analyze interpersonal relationships, strengths, weaknesses, roles, conflicts, and contexts to improve academic, personal, and professional success.
- CLO4 Identify the skills and abilities needed to successfully interact with peers, co-workers, family, and friends to raise self-efficacy and self-esteem in various contexts.

#### **Essential Employability Skill Outcomes (ESSO)**

This course will contribute to the achievement of the following Essential Employability Skills:

- X EES 1. Communicate clearly, concisely and correctly in the written, spoken, and visual form that fulfills the purpose and meets the needs of the audience.
- X EES 2. Respond to written, spoken, or visual messages in a manner that ensures effective communication.
- EES 3. Execute mathematical operations accurately.
  - EES 4. Apply a systematic approach to solve problems.
- X EES 5. Use a variety of thinking skills to anticipate and solve problems.
- EES 6. Locate, select, organize, and document information using appropriate technology and information systems.
- X EES 7. Analyze, evaluate, and apply relevant information from a variety of sources.
- X EES 8. Show respect for the diverse opinions, values, belief systems, and contribution of others.
- EES 9. Interact with others in groups or teams in ways that contribute to effective working relationships and the achievement of goals.
- EES 10. Manage the use of time and other resources to complete projects.
- X EES 11. Take responsibility for one's own actions, decisions, and consequences.

## **Evaluation Criteria:**

The Course Learning Outcomes and Essential Employability Skills Outcomes are evaluated by the following evaluation criterion.

Evaluation Description	Course Learning Outcomes	EESOs	Weighting
In Process: Active participation and engagement in activities, exercises, and discussions (in-class and online); continually assessed throughout the semester.	CLO1, CLO2, CLO3, CLO4	EES1, EES2, EES5, EES7, EES8, EES11	20
Assignment: Self-reflection assignment.	CLO1, CLO2, CLO3, CLO4	EES1, EES2, EES5, EES7, EES11	16
Case Study: Case study analysis #1.	CLO3, CLO4	EES1, EES2, EES5, EES8	6
Case Study: Case study analysis #2.	CLO3, CLO4	EES1, EES2, EES5, EES8	6
Case Study: Case study analysis #3.	CLO3, CLO4	EES1, EES2, EES5, EES8	6
Case Study: Case study analysis #4.	CLO3, CLO4	EES1, EES2, EES5, EES8	6
Test: Test #1.	CLO1, CLO2, CLO3, CLO4	EES1, EES2, EES5, EES7	20
Test: Test #2.	CLO1, CLO2, CLO3, CLO4	EES1, EES2, EES5, EES7	20
Total			100%

#### Notes:

- 1. In order to earn in-process marks, students must be present in class the day the activities take place and meet the submission deadline. Many of the activities require student-teacher and student-student interaction and the intended learning cannot take place if the student is absent from this process. All application marks are earned through both scheduled and random activities conducted throughout the semester and are intended to give students the opportunity to apply concepts covered in class to enhance and reinforce learning. Given the nature of these activities, there are no make-ups or facility for submitting after the submission deadline. Application activities not completed within the established timelines and parameters will not be considered for grading purposes. Deviation from this policy will occur on a case-by-case basis, where warranted, at the full discretion of the professor. Documentation may be required.
- 2. All written work that is submitted for formal evaluation must be in full, grammatically correct sentences and paragraphs. Point-form written work will not be accepted and will be given a zero. Written work must be typed; hand-written work will not be accepted.
- 3. Assessments and evaluations are to be submitted by the deadlines given. The instructor will specify whether the assessment or evaluation is to be submitted as a hard-copy or as an e-copy via the relevant DC Connect online submission folder. Late submissions will be assessed a penalty of 10% of the total possible grade for the assignment per 24 hours late up to 72 hours, after which the assignment will no longer be accepted. These requirements reflect the importance of deadlines in a workplace environment and the consequences of failing to meet such deadlines. Requirements must be observed carefully to avoid academic penalties. Missed assignments cannot be made up through any method. Students will NOT be allowed to complete "extra assignments" to "raise their mark" at the end of the term. Students must complete and hand in term work as it is assigned.
- 4. The two tests may include multiple-choice and true-false questions as well as short-answer or fill-in-the-blanks. Test #1 will cover material delivered in weeks one to six; test #2 will cover material delivered in weeks eight to

Required Text(s) and Supplies:
Recommended Resources (purchase is optional):

thirteen. There is NO formal examination.

# Policies and Expectations for the Learning Environment:

#### **General Policies and Expectations:**

#### General College policies related to

- Acceptable Use of Information Technology
- Academic Policies
- Academic Honesty
- + Student Code of Conduct
- Students' Rights and Responsibilities can be found on-line at http://www.durhamcollege.ca/academicpolicies

#### General policies related to

- + attendance
- + absence related to tests or assignment due dates
- + excused absences
- + writing tests and assignments
- classroom management can be found in the Program Guide (full time programs only) in MyCampus http://www.durhamcollege.ca/mycampus/

#### **Course Specific Policies and Expectations:**

In order to ensure a quality learning environment for all students, the following policies have been established for this course. Any behaviour that disrupts the learning environment will be dealt with according to the Durham College Academic Policies and Procedures.

Participation and Assignment Completion: Active participation is the best predictor of student success. Students are expected to actively participate in course activities and discussions and any tests or assignments. Unless you have made prior arrangements with your instructor, you are expected to complete all assignments and submit them, on time, according to your instructor's instructions. In situations where serious illness, emergencies or other circumstances prevent you from completing assessments, please get in touch with your instructor via DC Mail as soon as possible. You will be required to provide documents that verify your situation before accommodations can be made, and any arrangements to make up missed assignments will be at the sole discretion of the instructor.

Grading and Feedback: Students should consult their course outlines for a list of assessments and associated weighting. Faculty will return assessments to students within an appropriate time frame for the assessment type, typically three weeks at a maximum, with exceptions negotiated between the instructor and the class. Assessments may be returned via DC Connect or in class. It is the student's responsibility to review their graded assessments and any feedback that may have been provided to improve academic performance. Students may request an interview with the instructor, within 15 days of the returned assessment, to further clarify assessment results.

Plagiarism and Academic Integrity: Plagiarism is a serious breach of the College's Academic Integrity policy and will be enforced on any students involved in incidents of plagiarism, of any type. This could include any or all of the following: a mark of zero on an evaluation, a mark of zero in the course, non-admittance to a course or program, withdrawal from a course, or dismissal from the college. In all cases, a formal Academic Alert will be issued that will document the infraction that has taken place, notification will be given to the Dean/Associate Dean and a record will be placed in the student's file. Professors may request electronic files of written submissions. Plagiarism detection software may be used during the marking process. Any work that has been plagiarized will receive a mark of zero. If it is determined that a student has shared any work with or copied from another student, then all students involved will receive a mark of zero for the entire assignment or test.

DC Connect: Students are expected to check DC Connect and their DC Mail daily for both college-wide, program specific, and course-related information. Each Durham College student has a DC Mail email address which they should check daily. Communication between students and faculty via email is limited to the DC Connect system. Should a student have a login and/or performance issue with DC Connect, it is their responsibility to report the issue(s) to the IT Help Desk.

Diversity: Durham College classrooms -- whether physical or online in nature -- reflect the diverse nature of the workplace, and will often include students of different race, age, ethnicity, culture, socioeconomic status, nationality, belief, ability, gender identity, and sexual orientation. Students are expected to be considerate of their classmates, respect each other's differences and help to create a safe environment where everyone can focus on the work at hand. This course may include the use of readings, discussions, and case studies that enable students to respond to differences with real empathy, recognize the legitimacy of those differences, and understand that there are many ways to make meaning in this world.

## **General Course Outline Notes:**

- 1. Students should use the course outline as a learning tool to guide their achievement of the learning outcomes for this course. Specific questions should be directed to their individual professor.
- 2. The college considers the electronic communication methods (i.e. DC Mail or DC Connect) as the primary channel of communication. Students should check the sources regularly for current course information.
- 3. Professors are responsible for following this outline and facilitating the learning as detailed in this outline.
- 4. Course outlines should be retained for future needs (i.e. university credits, transfer of credits etc.)
- 5. A full description of the Academic Appeals Process can be found at https://durhamcollege.ca/about/governance/policies/academic-policies.
- 6. Faculty are committed to ensuring accessible learning for all students. Students who would like assistance with academic access and accommodations in accordance with the Ontario Human Rights Code should register with the Access and Support Centre (ASC). ASC is located in room SW116, Oshawa Campus and in room 180 at the Whitby Campus. Contact ASC at 905-721-3123 for more information.
- 7. Durham College is committed to the fundamental values of preserving academic integrity. Durham College and faculty members reserve the right to use electronic means to detect and help prevent plagiarism. Students agree that by taking this course all assignments could be subject to submission either by themselves or by the faculty member for a review of textual similarity to Turnitin.com. Further information about Turnitin can be found on the Turnitin.com Web site.

# **Learning Plan**

The Learning Plan is a planning guideline. Actual delivery of content may vary with circumstances.

Students will be notified in writing of changes that involve the addition or deletion of learning outcomes or evaluations, prior to changes being implemented, as specified in the Course Outline Policy and Procedure at Durham College.
